President's Scholarship ... 2016
University of Waterloo

💼 WORK EXPERIENCE

Engineering Practicum Intern .... May 2018 — present
Google | Google Display Ads—Engineering Productivity
- Designed and implemented an interactive dashboard for release metrics, allowing engineers to easily provide feedback and analyze statistics
- Built front end and backend for the dashboard's time series analysis feature, enabling release engineers to identify time-related anomalies
- Built data validators & configured probe services to preserve data integrity
- Migrated Bigtable API logic to GoogleSQL, doubling live query speed
- Refactored over 200 lines of code for reusability/maintainability

Software Engineering Intern .... Jan. 2018—Apr. 2018
Oath Inc. | Yahoo Mail Metadata & Search
- Implemented filter functionality and simplified business logic of logging module in Java, reducing log sizes by 60% and enhancing developer debugging capabilities
- Revised scripts to improve data retrieval from HBase
- Refactored configuration classes to enable parallelized unit tests

Full-Stack Developer Intern ....May 2017—Sept. 2017
Loblaw Digital | Click and Collect Online Grocery Shopping
- Coordinated with Communications department to integrate SalesForce Marketing Cloud APIs, enhancing customer journeys for email subscriptions
- Designed and implemented content customizability for website pop ups using the Hybris CMS cockpit
- Created Cron Jobs and Java Spring Boot applications to stub API behaviour, expediting automation testing and migration
- Resolved front-end and back-end bugs for online grocery account logic

Chair *(previously Big CSters Director)* .... 2016—present
Women in Computer Science | University of Waterloo
- Organized events to empower women & non-binary individuals in CS
- Managed and contributed to open-source repo of the WiCS Website
- Facilitated project management among 10 executives on GitLab
- Engaged with external partners to promote WiCS Sponsorship program

📄 PROJECTS

RedditBot 🔗 2018
- SlackBot: browse/post on Reddit within workplace communication channel

PushMeme (The Lady Hacks) 🔗 2017
Best Use of Amazon Web Services
- MEAN stack web app: motivate channel members by sending motivating memes

RapChatz (Starter Hacks) 🔗 2017
Best Development && Best Use of Amazon Web Services
- Amazon Alexa Facebook Chatbot: speak/type a word and the chatbot/Alexa returns context/sentiment—relevant rap lyrics

SpoilersSuck (Hack the 6ix) 🔗 2017
- Chrome Extension: blurs Game of Thrones spoilers (images, text)
